Place Exchange ensures quality in the Digital Out of Home ecosystem with **Place Exchange Clear**

Quality

All PX OOH media partners agree to the rigorous requirements of Place Exchange's inventory standards. All inventory is regularly reviewed for compliance.

Consistency

PX standardizes inventory attributes so buyers can transact across diverse DOOH formats. PX ensures consistency of impression counts by vetting each publisher's impression counting methodology, partners, and data sources.

Transparency

PX passes each publisher's media exactly as the publisher presents it with all associated data and no aggregation or bundling for full media transparency to buyers. PX provides proof-of-play validation. There are no hidden fees and no arbitrage.

Compliance

PX prioritizes privacy compliance in all jurisdictions in which it operates. PX is verified by TAG and a member of the NAI. PX requires its publisher partners to certify that they have the legal right to sell and display inventory on their assets.
